**Dentsu acquires Digital Evolution Group (DEG)**

DEG allows Dentsu to deliver premier digital transformation services through Salesforce platform expertise

Dentsu Aegis Network entered into an agreement to acquire a 100% stake in DEG

Acquisition Overview

Acquisition Date: December 19, 2018

DEG Business Overview

- Founded: 1999
- Headquarters: Overland Park, Kansas
- Additional offices in Denver, Pittsburgh, and Des Moines
- Employee Count (at acquisition): 300
- DEG is a US-based digital marketing agency. It has leading data-driven marketing, commerce, and collaboration solutions agency capabilities.
- It also has strong technology relationships such as Salesforce, Adobe, Sitecore, and Microsoft
- Key clients include Purina, AMC Theaters, Fender Guitars, Hallmark, and LVMH
- FY17 revenue: \$45.8m
- YoY Growth: 38.2%

Deal Terms

- Post acquisition, DEG's management team will remain unchanged. Neal Sharma, CEO of DEG, will continue to lead the agency in the same role
- Transaction value: \$150m
- EV / LTM Revenue: 3.0x
- The transaction would position Isobar and DEG as a leading multi-cloud agency partner

Strategic Rationale

- DEG will contribute significantly to Isobar's scale and capabilities across commerce, technology, and digital marketing in the U.S. market
- DEG will enhance Isobar's ability to deliver end-to-end commerce solutions as well as cement Dentsu Aegis Network as one of the largest agency partners of Salesforce in the world
- Post acquisition, the agency will be called "DEG, Linked by Isobar," and will accelerate the Group's growth strategy for the U.S.

2

**Systems integrators are evolving into full-service agencies: A primer**

3

**on their differences in capabilities**

## Systems integrators are evolving into full-service agencies

### Evolution of the platform and the partnership:

Traditional systems integration is the process of creating a complex information system that may include designing or building a customized architecture or application, and integrating it with new or existing hardware, packaged or custom software, and communications.

- Rapid commerce innovation and the increasing complexity of consumer demands means retailers must take a holistic approach to compete with giants like Amazon
  - To do this they must partner with best-in-class commerce enablers who provide a full suite of services: technology integration, tailored ecommerce platforms, intuitive user experiences, and engaging, informative content

These modern platforms can no longer be engaged on a project by project basis. Rather, they must be thought of as strategic partners who are consistently involved in delivering value to customers.

SIs with digital agency capabilities are moving away from project-based revenue to a re-occurring revenue model

- Rather than an end project goal, there is constant engagement and product and experience delivery and paired with technology upgrades.

### Full service platforms are winning:

As full service companies, vendors aim to provide digital design, consulting and engagement marketing, along with technical expertise and global reach required to stand out in the crowded ecommerce landscape.

As ecommerce platforms and marketing suites continue to consolidate, such as Salesforce-Demandware and Adobe-Magento, Systems Integrators with Digital Agency capabilities become increasingly valuable.

These combined capabilities in turn make modern Systems Integrators strategic acquisition targets themselves.

The vast complexity of the digital retail ecosystem necessitates SI partners

## 2 Systems integrator vs. digital agency capabilities: a primer

**Systems  
integrators**

Focuses on integrating systems, third-party solutions, networks, and databases needed to operate ecommerce websites, often times through enablers such as ecommerce platforms

**Services provided**

- Setting up and developing a company's digital commerce platform
- Responsibilities include:
  - installing and configuring supporting software
  - integrating internal and third-party systems into the new platform
  - customizing the platform to company specifications

- Hosting services provide hardware infrastructure needed to support ecommerce software
- SIs help maintain the data center supporting an ecommerce site
- Offer additional services such as physical and system security, recovery services, and more

- Offers creative services fulfilled by in-house staff or third-party partners
- Includes UI/UX design and branding or "skinning" of the site

**Digital  
agencies**

Creative  
design

Marketing  
automation

Digital marketing  
support

Email  
marketing

SEO

**Services provided**

**Digital branding and design**

- Agencies provide strong creative branding capabilities
- Front-end website design incorporating agency marketing expertise
- Provides strong UI/UX capabilities that ensure the quality of architectural design across all devices and channels

**Omnichannel marketing**

- Offer UI/UX designer support that work with company marketing teams
- Designers help maintain the look and feel of company websites in order to best execute marketing campaigns across a variety of digital channels (mobile, email, website, etc.)

**Strategy**

- Agencies work with companies to help develop long and short term strategies
- Strategy support includes ROI and AOV analysis, competitor analysis, roadmap development, and other industry insights
- Agencies implement their practices with the company's mission in mind

2

## Agencies provide broader services that help retailers realize the full potential of their brands

### Strategy

- ❑ Agencies help businesses realize long and short term goals and develop objectives to achieve them
- ❑ By analyzing industry trends, competitors, business models, and geographical barriers, agencies understand the architecture and design of their clients' systems
- ❑ Deliverables include go-to-market plans, technology recommendations, and organizational designs

### Creative Design

- ❑ Design services include site architecture and layering that adapt according to consumer preferences
- ❑ Agencies design the UI/UX and branding of websites in tandem, with each drawing inspiration off the other
- ❑ Deliverables include simple-to-use and user-friendly designs that adapt to the base platform

### Technology Implementation

- ❑ Agencies help develop a roadmap intersecting business and technology strategies
- ❑ Using two main methodologies: "agile" and "waterfall" approaches, agencies manage projects comprehensively
- ❑ "Agile" approaches include short-term sprints (small components of larger project) that run concurrently, reducing implementation time. "Waterfall" approaches rely on a continuous stream of development in a linear fashion, establishing checkpoints to keep projects on track

### Hosting & Ongoing Support

- ❑ Agencies integrate ecommerce platforms through expertise in various service models including: licensed / on-premise, licensed / managed by provider (IaaS, PaaS or SaaS)
- ❑ Once implemented, hosting and ongoing support is handled either by internal IT teams or third-party data centers
- ❑ Ongoing support services of agencies depend on whether issues relate to the hosting environment or the software

### Marketing

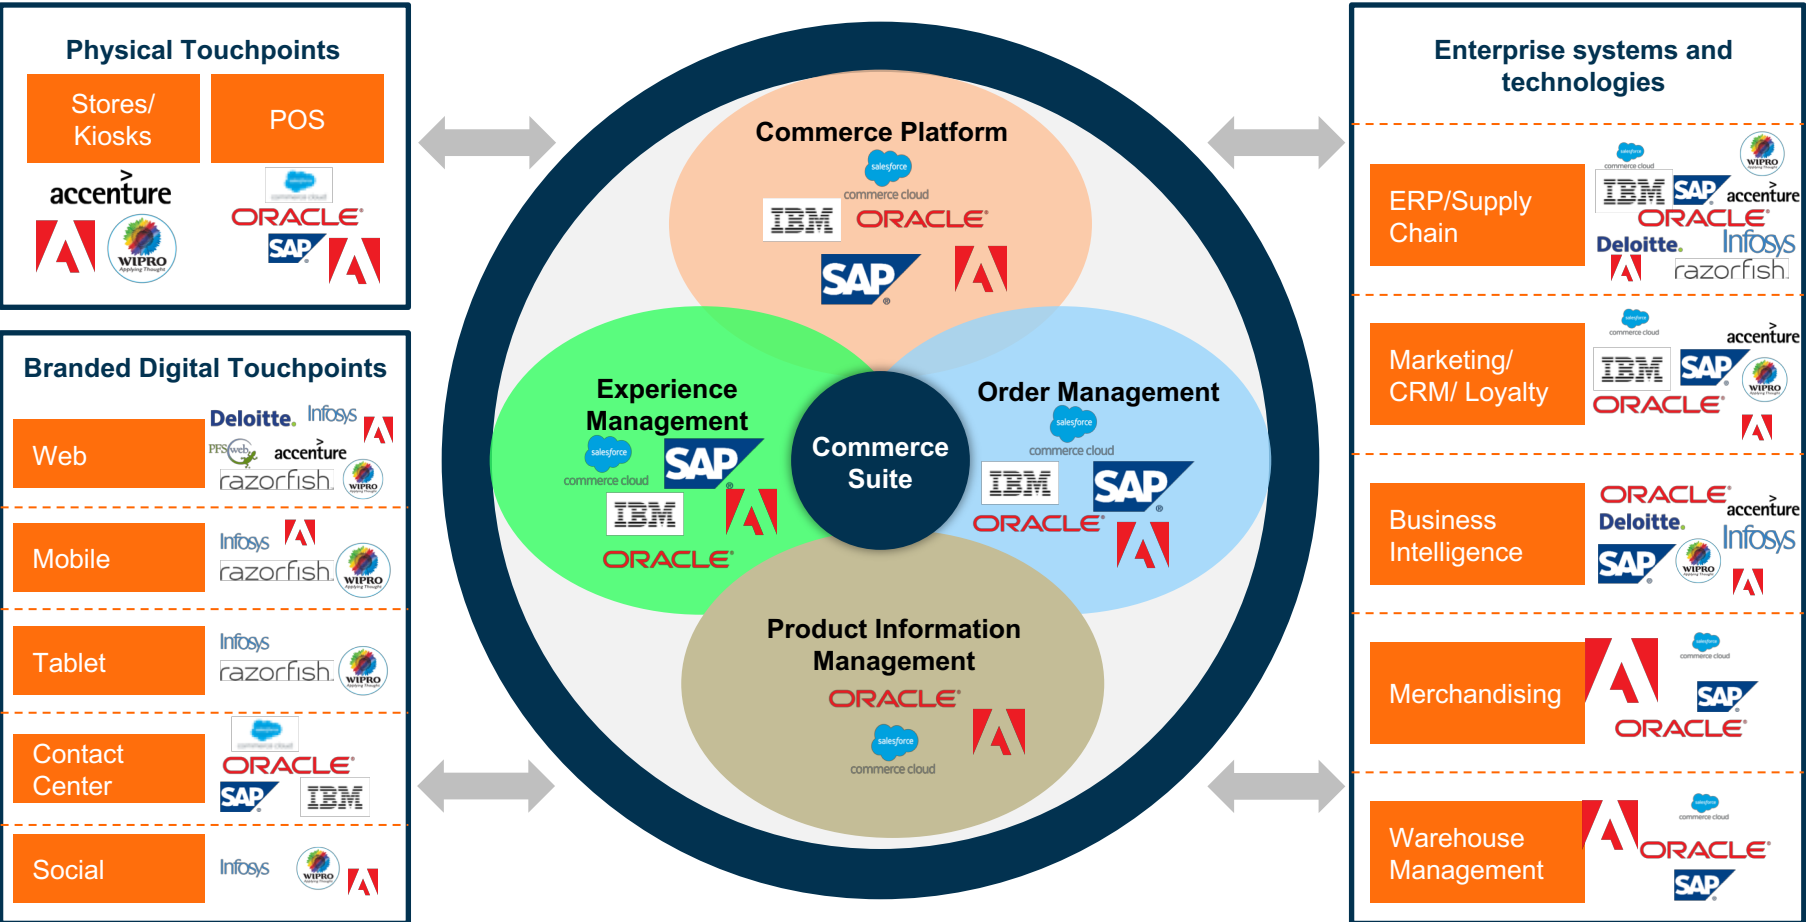

- ❑ As ecommerce increasingly relies on digital marketing, agencies offer marketing services in addition to ecommerce platform implementation
- ❑ These services range from executing internal functional marketing projects to assisting campaign design and execution across a variety of marketing channels

Digital agencies offer end-to-end services that cover the entire retail value chain, spanning from implementation to execution

# Appendix: About ComCap

# Why ComCap?

## ▪ Who is ComCap?

- Digital commerce focused boutique, 100% focused on the ecommerce value chain
- Proven team with background at Credit Suisse, Wells Fargo Securities, and Battery Ventures with 50+ years of combined experience
- Senior execution with a strong bench team for support
- We are small, so we must be selective, working only on the best probability engagements, but working ferociously to achieve a great outcome
- We do deals where we add unique value – not untargeted auctions to test the market

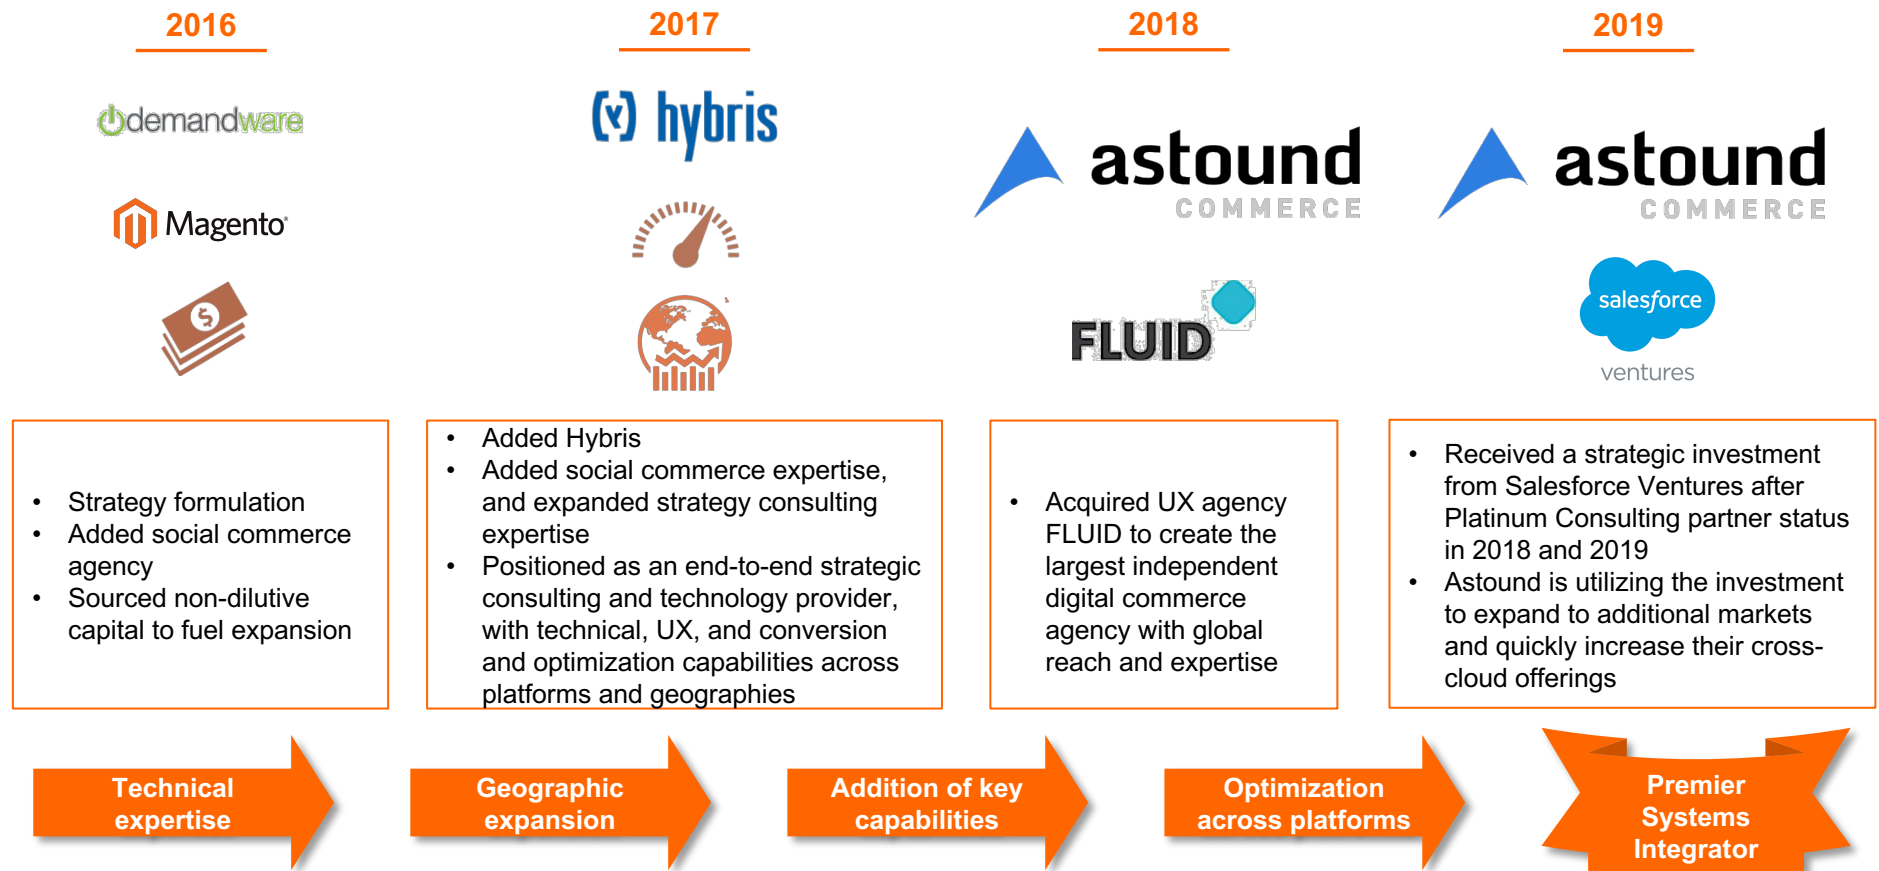

## ▪ How do we differentiate?

- Vertical focus enables deep understanding of your value proposition
- Unique synergies identification and advocacy process – based on bottoms up revenue and profit analysis of the value of entering new geographies, new verticals for strategic investors / buyers
- Huge network among strategics in the US, Europe and Asia
- 50% of our transactions are cross border (active in the US, Asia, Europe and LatAm)
- New market entry experience on buy-side

## ▪ Win-win proposal and differentiated proposition for our clients

- While we may charge premium pricing, we offer greater levels of service than other firms, and our client references will attest to this

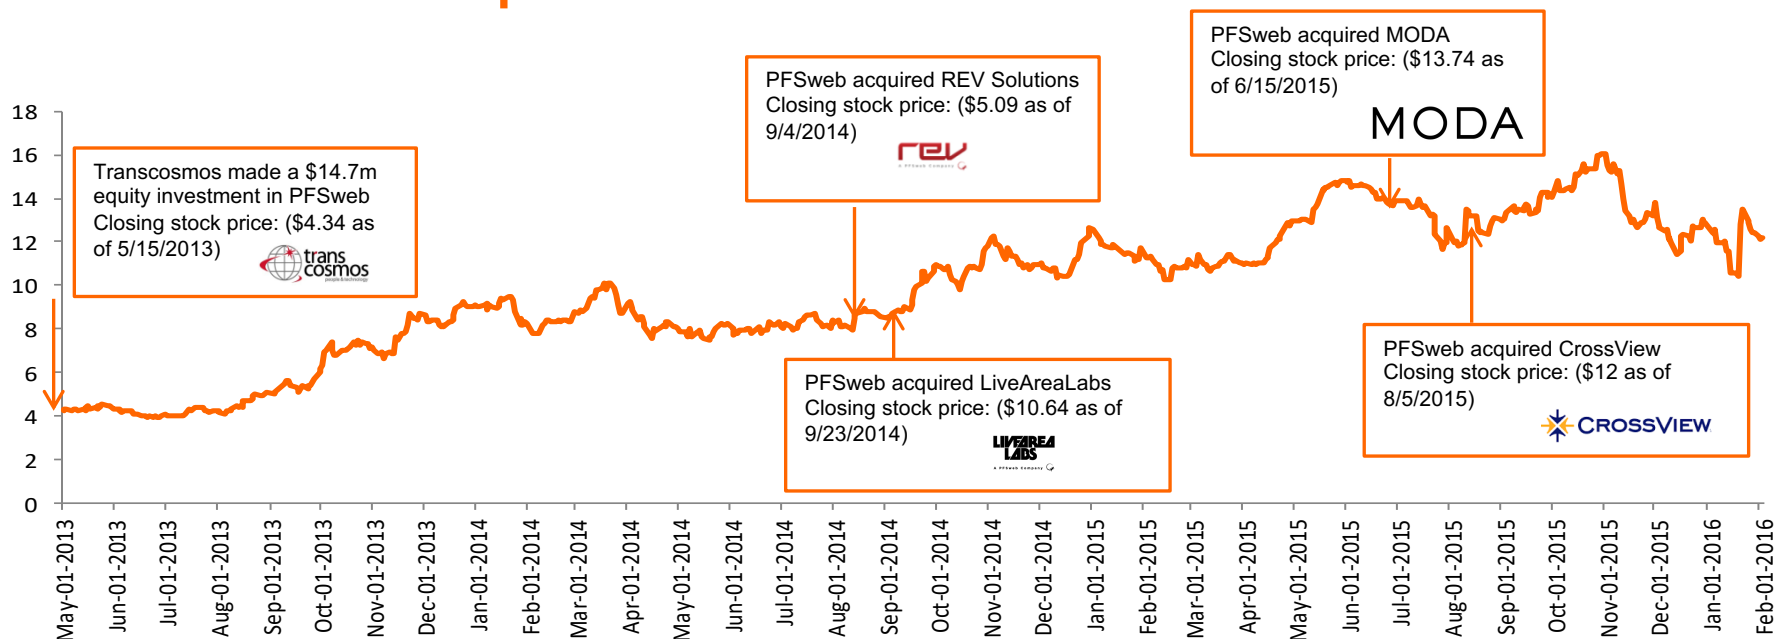

# Astound Commerce Case Study – ComCap provides guidance to prioritize opportunities for expansion and maximize value

ComCap orchestrates a journey that helps founders realize premium valuation

Over the course of several years, ComCap provided insights to help Astound prioritize opportunities for expansion. Our efforts resulted in acquisitions and efforts that filled in key capabilities, ultimately positioning Astound for a value-maximizing event

# PFSW Case Study – Stock price increase following 1 equity investment & 4 acquisitions

## ComCap's role

- Developed acquisition strategy in terms of services offered (system integrators, creative agencies, marketing agency, technical agencies, etc.), geographical reach (Europe, Asia, North America) and technology platform partnership (Demandware, Magento, and Hybris)
- Reached out to a variety of lenders including asset management firms, hedge funds, and strategic investors, resulting in a \$14.7m investment from Japanese ecommerce solutions provider Transcosmos
- Managed and executed deal from submitting an LOI package to negotiating deal structure and terms to conducting due diligence calls on the acquisition target's top clients
- Improved PFSweb's geographical presence and service offering in Europe, resulting in cross-selling opportunities with its newly acquired subsidiaries and access to marquee European clients in retail and luxury
